

2024 Chippewa County Farm Technology Days Fall Show

Site Selection Criteria

- The farmstead and major land owned must be in Chippewa County. A minimum of 400-500 tillable acres is needed for the show. Land can be owned/leased or can be part of a joint application.
- 2. Have good access to parking area or areas from at least two directions readily available by good roads with a good traffic flow pattern.
- 3. Land can be under the control of the operator. Also, written rental agreements must be shared with the FarmTechnology Day's Executive Committee to ensure that property will be operator's control through 2024.
- 4. Landowner must be willing to cooperate with the Committee on use of cropping acres and must be willing to sign a written agreement to this effect.
- 5. The owner must understand that at least 160 acres of reasonably level land, in sod or other acceptable cover, will be used for Tent City, exhibitor parking, general parking and demonstration plot area.
- 6. In addition to the acres in #5 listed above, approximately 250–350 acres of grain/forage (corn silage), and specialty (optional) crops must be available for harvesting during the three-day event.
- 7. Owner must have adequate storage space available.
- 8. Finalists will be expected to provide statement of financial condition:
 - a) to be reviewed by the Chippewa County Executive Committee's Financial Review Subcommittee; and
 - selected farm must notify the Chippewa County Executive Committee prior to any major equipment and/or improvement purchases between selection and show; details are negotiable.
- 9. All information and applications will be kept confidential.
